- Option 2 I am (we are) able to pledge the full amount of \$
- Option 3 I am (we are) able to pledge the following amount towards the cost of education: \$

Please contact the school to set up a pledge meeting.

- I want to make arrangements for automatic withdrawal (ACH) payments. (additional form required)

I would like to pay my pledge in _____ installments, of \$ _____ per _____, beginning _____.

I am aware that the full cost of educating children at Youth Initiative High School is borne by the whole school community, of which I am a member. I have carefully considered my family's resources and choices about how I spend money and I am offering the very best financial pledge I am able to make toward these costs this year. I will keep the school apprised if I am unable to fulfill my financial and volunteer pledge during the school year. All pledges are reviewed (and approved) by the finance committee of the YIHS. How do you calculate your pledge? This is not an easy issue. Consider what it means to contribute your "fair share". It is relatively easy to come up with a per-student cost of education by dividing the budget by the number of students. But financial inequities are a fact of life we need to come to terms with. Some families will be able to pledge more than the cost of education, others will be able to pledge less.
